IT Support professional and Full-Stack Web Developer with hands-on experience managing IT infrastructure, developing web applications, and supporting digital operations. Strong background in maintaining secure systems, resolving technical issues, and building functional, scalable applications.

Core Competencies
IT & Technical Support:

- Systems Support & Troubleshooting
- Network Maintenance (LAN/WAN)
- cPanel, DNS, VPS & Email Administration
- Hardware & Software Asset Management
- Data Backup & Security Best Practices

Software Development:

- Full-Stack (React, Next.js, Vue.js, JavaScript, HTML5/CSS, TailwindCSS, Node.js, Express)
- PHP, Laravel, WordPress, WooCommerce
- REST API Integration
- Database Management (MySQL, PostgreSQL, MongoDB)

WORK EXPERIENCE

Full Stack Developer (Remote)
SoftlinkAI Marketing Technology Limited
Remote | September 2025 – Present

- Designed, developed, and maintained full-stack web applications using modern front-end and back-end technologies.
- Built responsive and user-friendly interfaces while ensuring cross-browser and mobile compatibility.
- Developed and consumed RESTful APIs to support scalable application features and integrations.
- Implemented secure authentication, authorization, and role-based access control across applications.
- Collaborated with product managers, designers, and other developers in a fully remote environment using agile workflows.
- Optimized application performance, database queries, and API response times.
- Deployed, monitored, and maintained applications on cloud or hosting platforms.

- Used version control systems (Git/GitHub) and followed best practices for code quality and documentation.
- Troubleshot, debugged, and resolved production and staging issues efficiently.

IT Support Officer
Starbite Integrated Catering Services Ltd, Lagos
September 2024 – October 2025

- Manage and maintain the company's E-commerce website, including content updates, product listings, and technical troubleshooting to ensure smooth user experience.
- Set up and configure corporate email accounts for new team members, ensuring secure and efficient communication channels.
- Collaborate with delivery service providers to resolve technical issues related to order tracking, system integration, and notifications.
- Oversee and maintain all company hardware and software assets, ensuring optimal performance and minimal downtime.
- Monitor and maintain LAN/WAN network performance, performing diagnostics and troubleshooting when needed.
- Ensure data security and backups across company systems to prevent data loss and maintain compliance.
- Coordinate with external vendors for system updates, domain management, and website hosting support.
- Train team members on basic IT tools and digital best practices to enhance efficiency and productivity.
- Document IT processes, incidents, and resolutions for future reference and workflow improvement.

Full-Stack Developer (intern)
Listed Hosting Remote
July 2025 – December 2025
- Developed user interfaces with React components
- Implemented backend APIs with Node.js and Express
- Collaborated with team using Git version control
- Contributed to the development of Cityserver webAPP, an online platform for ordering artisan services.

Quality Assurance (Intern)
Suntory Foods and Beverages, Ogun State
October 2018 – October 2019

- Monitored production quality for daily output, ensuring compliance with hygiene and safety protocols
- Assisted QA team in sample testing, documentation, and compliance checks.

- Helped identify product defects and ensured corrective measures were promptly implemented.
- Gained experience in quality control documentation, reporting, and internal audits.
- Conducted line inspections to ensure proper calibration of machines, clean-in-place (CIP) compliance, and adherence to Standard Operating Procedures (SOPs).
- Ensured accurate documentation of batch records, deviation reports, and daily production quality logs.
